Our Vision

Mindchain made the world's first unadulterated confirmation of-stake fundamental blockchain intended for the eventual fate of money.

Likewise, past the rudimentary prerequisite of an open, public organization, Mindchain's innovation empowers a bunch of high performing Layer-1 blockchains that give security, versatility, complete exchange conclusiveness, inherent protection, Co-Chains, and progressed keen agreements that are fundamental in a future world.

This is The Future of Finance. The assembly among decentralized and conventional monetary models is speeding up and we are here to control it.

A reality where everyone makes and exchanges regard adequately, directly, and securely.

What We Do?

The Mindchain Foundation is commit to building the structure for a more even hand and viable future. Our gathering is include designers, specialists, researchers, originators, and money managers who share a comparative vision. Similarly, we're endeavoring to deal with everyone's lives by making pattern setting developments more accessible and reliably planned. Predictable with the proverb of decentralization. So, our rallies have spread all over the world.

What is MINDCHAIN Token used for?

Securing the network

The primary utility of the MIND Token on Mindchain is to get the organization by means of a Proof-of-Stake framework.

To take part, validator hubs need to hold at least 7,10,00,000 MIND Token and stakers need to secure their MIND Token. As a trade-off for the assistance, both the hubs and the stakers are compensate with age rewards and expenses.

Other than thwarting centralization, the system is moreover innocuous to the environment.

Payments

The MIND Token is incredible for sending and getting portions in view of the Mindchain association's high-throughput, fast vindication, and low charges.

On Mindchain, cash moves take around 1 second and cost about \$0.0000001.

On-chain governance

Mind Token is need for on-chain organization. Since Mindchain is a totally assent less and leaderless decentralized natural framework, any decision concerning the association is finished by on-chain organization. With organization, stakers can propose and rule for changes and improvements. Mind Token is the organization token expect to check out the majority rule cycle.

Tokenomics

MIND Token is an ECR20 Token launched on the Ethereum blockchain on 1 November 2021.

Key information:

TOKEN SYMBOL	MIND Token
MAX SUPPLY	71,000,000
REWARD MECHANISM	2% PER TRANSACTION (BUY/SELL/SWAP)

Liquidity locked

The total supply of mindchain tokens are 100 Quadrillion, all of which has been burned/locked to Uniswap! This action was performed tensure there is no possibility of the token being “rug pulled”. This means that MIND Token is completely rug pull proof and is a safe investment!

Redistribution (Rewards Mechanism)

What makes MIND Token aractive is the redistribution mechanism. Each holder of the mindchain token earns 2% for every transaction processed! This means that every holder earns 2% of the buy, sell or swap amount, your wallet size will grow every time you look at it - Passive income!

Network fees

Cerebrum Token is used for network costs, for instance, trade charges and charges to send sharp arrangements or to make new associations.

Without a base impediment, the association would be an undeniable target for spam. So, in the end hampering the show and filling the record with futile information.

On Mindchain, charges are outstandingly humble yet satisfactory to make it inconceivably exorbitant for a noxious performer to finish an attack.

Our Mission:

Overall trust through decentralization

Fundamental plans that drive gathering by billions of people

Perfect advancement that wipes out deterrents to flourishing for all.

Our Valuse:

Think Beyond

Find the center of the issue
Go for the best impact

Be Courageous

Attempt to miss the mark
Be a positive force

Solve Creatively

Open your cerebrum
Express your viewpoints

Succeed Together

Act with uprightness
Stay devoted to your responsibilities

Where is Mindchain going?

Mindchain is based on Turkeys, an inventive aBFT arrangement. Additionally, we are making a blockchain natural framework along the whole blockchain advancement stack.

We're building the establishment for a more related and capable future. Above all, where people will really need to take advantage of the mechanical forward jumps to deal with the idea of their lives.

We are brought and satisfied down to be fundamental for the high level bombshell that will at last soak all pieces of our lives, from portions and a totally mechanized economy to cutting edge character, clinical records, to make an overall scale web of cutting edge assets

Investing in blockchain tokens

Mindchain tokens have become a new asset class and have started to attract more and more investors. Mindchain tokens may be appealing to investors because they are inherently global, highly liquid, and easily tradable. Although attractive, Mindchain tokens are also risky, primarily due to fundamental uncertainty and information asymmetry. Investors have to weigh the benefits against the risks when investing in Mindchain tokens.
